The Round Meadow PFA presents

CHRIS FULTON Ph.D.

With important information about how the electronic age, including computer usage and video gaming, are affecting the development of our children.

Some of the topics covered will be:

1. The social-emotional impact of excessive computer/video game usage by children.
2. When can internet usage and video gaming be too much?
3. How much monitoring should a parent do?
4. Effective tools parents can use to help create a positive environment for their children in the computer age.

FREE ADMISSION-OPEN TO ALL PARENTS

(no children please)

5151 Round Meadow Rd. Hidden Hills, CA 91302
