Join us for our FREE parent workshop with Dr. Stephen Ball from the Fulton Psychology Group. Dr. Stephen Ball is a Licensed Psychologist working in private practice. He provides individual, group, family and couples therapy, as well as parent training and education for divorcing parents regarding effective co-parenting.

Dr. Ball emphasizes a genuine and practical attitude toward therapy which builds rapport quickly and encourages children and teens to feel respected, safe and understood. He believes that children benefit most from consistent parenting and tries to instill an understanding of how an individual's context, interpersonal relationships, physiological responses, and environmental factors can influence problematic behavior. He uses behavioral techniques with children to encourage them to construct novel ways to problem solve and overcome difficulties.

**We hope to see you at this free parent workshop!**
